INTRODUCING SENTRY MOBILE

A ticket redemption solution in the palm of your hand.

Sentry mobile allows your establishment to validate every ticket printed from your Phoenix or Reliance thermal printers. Just scan the QR code on the printed ticket and Sentry does the rest.

Sentry ensures that the customer's payout ticket is valid and not a duplicate. Our simple user interface allows anyone to easily use the Sentry app and start securing your location immediately.

No need for cables and networking architecture. Simply pair your device with a Phoenix or Reliance printer and you are all set. Stop losing money! Get Sentry today and get back to making your business soar.

FEATURES

- Organizations and roles to manage your operations and delegate tasks to employees
- Higher printer capacity compared to previous Sentry products
- Email exports and exporting options
- Support across a wide variety of devices

ACCESSING SENTRY

Visit www.sensecure.app to access the Sentry web app.

Once your account is set up and a subscription has been purchased, you are ready to start pairing printers and validating tickets!
